SYNOPSIS

Having mastered his martial arts, Kong is far from despair when his master expels him from the institute for his evil conducts. Out on his own, he gathers 18 expert female fighters and builds up his impregnable Castle armed with booby traps.

Many fighters attempt to put a stop to Kong's evil ways, but none can surpass the traps and the deadly fighting skills of the female guards.

Dragon vows to avenge his father's death and risks getting caught by the 18 female guards. Luckily he is freed by Kim, who has been posing as a guard in order to avenge her own father's death. However her cover is blown and overpowered. By playing dead, she narrowly escapes her otherwise inevitable fate.

Meanwhile Dragon meets Master Whit Cloud by chance and begins to receive training under him. When White Cloud is killed by Kong's men, Dragon continues to train on his own from the Master's secret manual.

With the help of Kin and Li, Dragon sets out to destroy Kong and his guards. This time they form a formidable force as they come face to face with the infamous female guards. At the end Kong emerges and a deadly duel ensues.
