Nuclear catastrophe has driven an entire civilization to desperate measures. They must kill to survive. The people of Earth are captured and used against their will as intergalactic slaves.

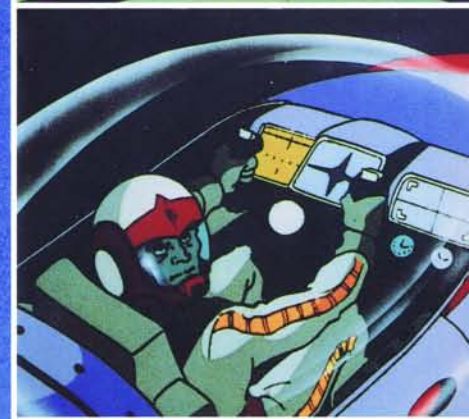

SYNOPSIS

In the not too distant future, in the far reaches of our Galaxy, an emergency signal from the planet Earth reaches the headquarter of the Cosmos Warriors. Space travelers from Earth are being kidnapped by the Green Empire. The Green Planet has been laid waste by a nuclear catastrophe and the remaining inhabitants have gone out to secure people by force to rebuild their civilization.

The mission to rescue the captives has fallen upon Captain Leo and his gallant crew. Their first attempt fails and they, too, fall into the evil clutches of the Green empire and its wicked Queen. Admiring Captain Leo's skill and bravery, she challenges him to fight her fiercest warriors with freedom for the captives as the prize. When Leo wins, she refuses to give in and orders the Cosmos Warriors killed.

A mammoth battle ensues and with help from robot friends and reinforcements from the Cosmos Warriors headquarter, Leo and his crew are victorious. The Green Empire are destroyed and the captives are set free.
